

SPORT is one of those things which a few men must take seriously so that many men may take it lightly. Nothing makes a spectator angrier than a player who doesn't care a whoop. The Tribune's Sporting Page is planned and edited with a serious undercurrent of conscientious effort. That's why it has built its name of covering the Sporting World thoroughly.

News—Editorials—Advertisements

"Corriere della Sera," of Milan, will command the Russian forces sent against Bulgaria. At the opening of the war he was Bulgarian Minister to Russia, but he resigned at once and offered his services to the Petrograd War Office.

One of the present efficiency of the Bulgarian army is credited to General Dimitroff. For his services against Serbia in 1915 he was decorated by Prince Alexander. Later he led a conspiracy against the prince and was forced to flee to Russia. He remained there until 1918, when he was pardoned by Ferdinand, whom he assisted to the throne. His appointment may mean an attempt to desertion to the element in the Bulgarian army which has shown strong Russian sympathies.

### Greek Action Puzzles.

Because of these vigorous moves by the Allies and the promise of able support a certain optimism prevails in Serbia quarters here. What action Greece will take remains still the greatest cause of anxiety, for through Greece the aid that means life or death to Serbia must come.

The Central Powers, it is known, have complained to Athens of the continued hospitality shown to the Allies. One report even said that the Greek government had asked the Allies to leave its territory. But, to offset this, there is the quoted assurance given by the Greek minister at Paris that Athens has no intention of changing her benevolent attitude toward the Allies.

And there are also rumors that the Bulgarians, who have clashed with the Greek frontier guards, may cross into

Greece. One of these reports arose to-day, when the following order of the day, issued by General Kikoff, commanding the Bulgarian forces along the Greek frontier, was announced:

"The hour has struck to realize the aspirations of the people and hunt down the ravagers of Macedonia. Bulgarians will thus dominate from the Adriatic to Thrace. Remember the heroism of your ancestors. Give rebirth to the glory of Alexander, the great Bulgarian."

### Bulgars Close on Nish.

For a moment, while the threat in Macedonia has been removed by the arrival of the French forces, the danger spot for the Serbians is the north-west corner, where they are being attacked from three sides and must eventually fall back to the southwest.

Berlin reports that the Bulgarians have crossed the Timok, east of Nish, over a large front and have captured Zajevar and Knjaevatz, on the railway from Negotin to Nish, which means to the invaders a supply road for an advance on the Serbian center. Knjaevatz is only thirty miles from Nish. A Salonika dispatch to "The Mail" says that the invader has occupied the strongly fortified town of Pirot, on the Oriental railway, thirty-five miles east of Nish. The German official statement says that the height of Krenovac, fifteen miles northwest of Pirot, has been occupied.

### King May Quit Serbia.

On the northern front the pressure has not ceased. While the Bulgarians are approaching Nish, the Teutons, Berlin says, "continue to advance." Since October 23 the army of General von Gallwitz is reported to have taken more than 2,000 prisoners. A Budapest telegram to the Cologne "Volks Zeitung" says that King Peter will probably leave Serbia and go to Italy.

But on the southern front, where the Allies have stiffened the Serbian lines and have begun a strong offensive, prospects for the defenders are encouraging. Railway communication between Salonika and Veles has been restored, and a military train going a long distance northward from Veles encountered no Bulgarian troops, according to a Havas dispatch from Athens.

From the same source comes the report that the Franco-Serbian troops, having retaken Veles, are marching eastward upon Isteb, overcoming Bulgarian resistance. A squadron of French aeroplanes has been assembled at Salonika and will soon proceed to the front.

Uskub, says an Athens dispatch to the Exchange Telegraph Company, has been retaken by the Serbians. With the French holding the Kraljak-Radojica-Summita line and with the Serbians holding Veles, Uskub would form a dangerous salient, which prudence could hardly allow the invaders to hold. According to a dispatch to "Le Matin" of Paris, Uskub was abandoned with the object of drawing on the Bulgarians and enabling the Serbians at Veles to envelop them in the north.

Around Summita fierce fighting is taking place. The French, says one report, have occupied the village of Tirtel. But a Sofia dispatch to the Overseas News Agency says that Turkish troops have engaged and repulsed an Anglo-French force near Summita, and adds:

"Bulgarian and Turkish mountain artillery has done great execution. Two thousand prisoners among whom were troops of all colors, have arrived at Sofia."

The armament on the Bosphorus has been transferred to Tehtatalja and Adrianople, while the Turkish garrison has been sent to the Bulgarian frontier, according to the Havas correspondent at Athens. For fear of raids by Russian aeroplanes Constantinople is plunged in obscurity tonight.

### Allied Force "Inadequate."

The gravity of the situation in the Balkans, from the standpoint of the Entente Allies, is emphasized in the statement which has reached the "Messager," of Rome, which states that the Allied forces landed at Salonika are insufficient and that thirty or forty days will be required to place adequate reinforcements on the fighting front. In the meantime, it says, the Serbian army may retire safely even as far as the Montenegrin mountains, awaiting a more favorable opportunity for taking the offensive.

### GERMAN OFFICIAL.

The official statement issued at Berlin says:

The armies of Generals von Kossow and von Gallwitz continue to advance. Since October 23 the army of General von Gallwitz has taken 2,000 prisoners and several machine guns.

The army of General Boyadjeff, the Bulgarian commander, has taken Zajevar, West of Knjaevatz, the Timok has been crossed over a wide front. Knjaevatz is in Bulgarian hands. Several guns have been captured. The height of Krenovac, twenty-five kilometers (about fifteen miles) northwest of Pirot, has been occupied.

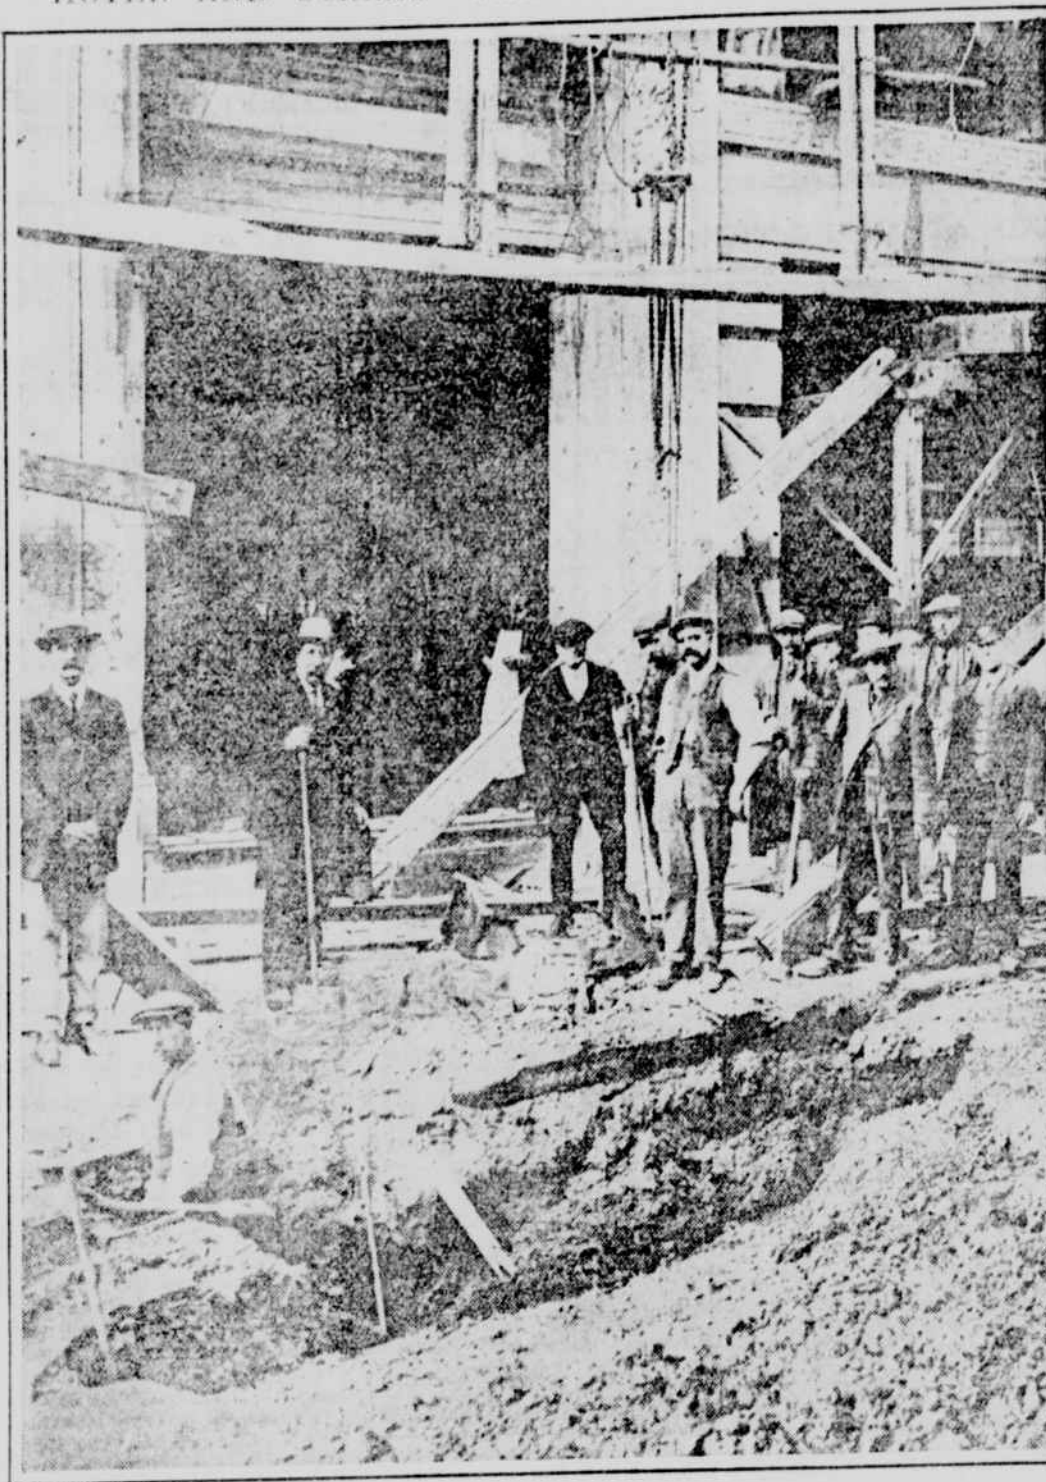

### GARIBALDI'S GRANDSON SHOT

Milan, Oct. 28.—Ezio Garibaldi, one of the five sons of General Ricciotti Garibaldi, and a grandson of Garibaldi, the Italian liberator, has been seriously wounded in a battle near Coulares, the "Secolo" states. A bullet entered his chest and perforated a lung. His father and mother have gone to Venice to be with him at the hospital.

Two of the sons of General Ricciotti Garibaldi, Bruno and Constantino, have been killed in the war. With their brothers they enlisted in the famous Alpine Brigade, once commanded by their grandfather, and went to the French front last year. They met death in Eastern France.

When Italy entered the war the French government released the Alpine Brigade, which returned to join the Italian army. On August 28 Ezio was wounded in the face while fighting the Austrians.

## GERMANS SHIFT RIGA TACTICS

Launch Attack from West—Russians Halt Foe's Offensive in Galicia.

London, Oct. 28.—Except around Riga, where the Germans are renewing their efforts to reach the Dvina River, and near Czartorysk, on the Styx, there has been no heavy fighting in the Russian arena. Engagements on a small scale have taken place west of Riga, showing that the Germans are attacking in a new direction. Hitherto their main attacks have been from the south and southwest of that city, where they were checked. On the Styx and in Galicia the German offensive, according to the Russian report, has been stopped.

The regularity of Russian attacks in the Dvinsk region and near the central part of the line and success for General von Linsingen's troops in the southern sector are recorded in today's German official statement.

Field Marshal von Hindenburg's army has repulsed Russian attacks made against the positions recently taken by the Germans northeast of Garbunowka, in the Dvinsk sector, and German troops have again occupied the cemetery of Szaszy in this region, evacuation of which was reported yesterday. Two officers and 150 men were taken prisoners.

The failure of a strong attack by the Russians against troops of the army of Prince Leopold of Bavaria near Tshersky is announced.

General von Linsingen's army, in the southern sector, has captured Rudka, to the west of Czartorysk.

The German statement says: The army of Field Marshal von Hindenburg is maintaining its progress northeast of Garbunowka against Russian attacks. The churchyard at Szaszy is in our possession. Two officers and 150 men were captured. Our artillery fire prevented the enemy from developing a movement undertaken from Garbunowka.

Near Tshersky, on the Vemem, northeast of Novo Grodek, a strong Russian attack failed.

Army group of General von Linsingen, to the west of Czartorysk, has been taken.

### GERMANS EXECUTE 3 MORE BELGIANS

Court Martial at Liege Decries Death for Two Other Persons After Trial.

Amsterdam, Oct. 28.—"The Telegraf" reports from Liege that two more persons have been sentenced to death there by court martial. Their names are Franz Laquay and Andreus Garot. Three persons—Oral Simon, Amadeus Heese and Constant Herck—already have been shot at Liege.

Nothing is known concerning the fate of Anna Renzert, of Verviers, Belgium, who was sentenced to death by a German court martial on Monday.

London, Oct. 28.—The American Embassy here stated to-day that it had received no word from Brand Whitlock, American Minister to Belgium, with relation to the recently published report on the case of Miss Edith Cavell which a German semi-official statement yesterday charged was inaccurate. The German statement declared that Minister Whitlock had made known his intention to inform the embassy here of the alleged discrepancy between the facts and the Cavell report as it was given out.

Berlin, Oct. 28 (by wireless to Tuckerton, N. J.).—Denial that Lieutenant Colonel Miasosyoff, an interpreter on the staff of the Russian Tenth Army, who some time ago was hanged as a German spy, was ever in fact a spy for the Germans, as charged, is made by the official "Norddeutsche Allgemeine Zeitung."

The newspaper, as quoted by the Overseas News Agency, asserts that Miasosyoff "was innocent if he really was sentenced for spying in the Ger-

## TEUTONS LOST 550,000 MEN IN SEPTEMBER

(By Cable to The Tribune.)

Petrograd, Oct. 28.—Germany's advance in Russia has been bought at the greatest cost. A recent army order, issued by the commander of one of the Russian armies, reads:

"Five months of strenuous work has been worthily accomplished by us. We took 2,217 officers and 109,392 soldiers, prisoners, and captured 67 guns and 415 machine guns."

This is the report of only one Russian army. Altogether Germany lost in September alone 300,000 in killed, wounded and prisoners. In the Russian arena, engagements include 50,000 prisoners. The armies of von Mackensen and Prince Leopold lost 50,000, drowned or suffocated in the Pinsk marshes.

This news, just made public at the same time as accounts of the misery of the German poor, has heartened the Russian nation and army, who are more decided than ever to fight to a finish.

man service, since neither he nor those associated with him ever gave information to Germany or Austria-Hungary."

The paper adds that it would have been useless to make any declaration of the nature of the present one before the execution of the accused.

## FRENCH DESTROY VOSGES TRENCH

Repulse Counter Attack—Germans Bombard Champagne Positions.

(By Cable to The Tribune.)

London, Oct. 28.—To-day's reports indicate that the heaviest fighting on the west front is centering on the sector north of Arras and on the Tachere salient, in Champagne. The French advance on the road from Arras to Lille is being hotly contested by the Germans, Paris reporting no further progress in that region to-day.

Further attempts by the Germans to break through the Champagne front were unsuccessful. In the Vosges the French destroyed an enemy trench and repulsed a counter attack. Violent artillery actions near Steenstraete, on the Belgian front, have taken place.

### FRENCH OFFICIAL.

The official communication from Paris says:

Artillery actions, particularly intense and prolonged, are reported in Belgium, on the Het Sas-Steenstraete front, as well as to the north of Arras, in the Bois en Hache, and in the region of Boesinghe. The enemy directed in Champagne a violent bombardment against our positions at Tachere and Maisons de Champagne. Our batteries replied by systematic fire on the enemy trenches.

In the Vosges, one of our reconnoissances having accomplished at Reich Ackerkopf the destruction of an enemy trench, which had been battered by our cannonading, the Germans delivered a counter attack, which was easily repulsed.

### BELGIAN OFFICIAL.

There was a slight bombardment to the north of Dixmude, and a violent bombardment between the "ferryman's house" and Steenstraete.

## GREECE LETS ALLIES STAY AT SALONICA

Paris, Oct. 28.—The Greek Minister, Athos Romanos, called at the Foreign Office to-day, to give assurances, under instructions from Premier Zaimis, that the reports that Greece would demand withdrawal of the Allied forces from Salonica were unwarranted.

## ITALIANS GAIN ALONG ISONZO AND IN ALPS

Capture Austrian Fort Near Globna and Trench in Dolomites.

## FALL OF GORIZIA BELIEVED NEAR

Riva Also Menaced by Advance—3,000 Prisoners Taken in Three Days.

(By Cable to The Tribune.)

Paris, Oct. 28.—The Italian successes continue along the Isonzo in the Trentino and in the Dolomites. On the height of Santa Lucia and opposite Tolmino further advances are reported in to-day's official statement from Rome. Southeast of Globna, in the Julian Alps, an Austrian field fort has been captured, and on the upper Cordevole, in the Dolomites, the Italians stormed up a rugged slope and took a trench filled with bodies of Austrian dead. On the Carso front Italy reports small advances and the capture of several prisoners.

With the fall of several strong positions near Gorizia, its capture, with that of Riva, is believed imminent, notwithstanding heavy Austrian reinforcements.

The magnitude of the Italian operations along the Isonzo front is indicated by the fact that 3,000 Austrian prisoners have passed through Udine to the rear in the last three days. Wounded soldiers of both sides report that the artillery preparation preceding the launching of the Italian offensive was appalling.

### ITALIAN OFFICIAL.

The Italian statement says:

From new positions, one on the right bank of the Adige, which commands communications at the bottom of the valley, our artillery on October 25 surprised and seriously damaged one of the enemy's military trains which was moving toward the Sant' Ilario station, north of Rovereto.

On the upper Cordevole, October 25, on the rugged slopes of Col di Lenna, we stormed another fort filled with hostile troops. We found the enemy's trenches choked with bodies. We took eight prisoners.

In the Monte Nero zone on the night of the 25th and 26th the enemy in great strength again tried to attack our positions above Vudiz. We allowed them to come within a short distance, then moved down and dispersed them with our cross fire.

Our offensive accomplished fresh progress on the height of Santa Lucia and opposite Tolmino, where we made twenty-one prisoners. In the Plava zone we conquered a field fort southeast of Globna. We took prisoner survivors of the garrison to the number of 102, four of them officers, and captured two machine guns.

On the Carso front heavy bombardment by the two artilleries continued throughout the day. Small advances were made there. We stormed several trenches, taking fifty-five prisoners, including one officer.

Rome, Oct. 27 (via Paris, Oct. 28).—At the cabinet meeting this afternoon Salvatore Barzilai Governor General of the Austrian territory held by the Italians, gave a report on the vigorous Italian advance, which the ministers considered most satisfactory.

Signor Barzilai, who was at Venice

after that city was bombarded by the Austrian airmen, described the condition of the famous Scarlatti Church. He said that he was certain that the Austrians intended to destroy St. Mark's, but that their bombs missed and fell in the street near by.

## YOUR AGE, BRER RABBIT!

His Majesty, the Kaiser, Is Taking a Census of the Empire's Bunnies.

(By Cable to The Tribune.)

Berlin, Oct. 28 (dispatch to "The London Morning Post").—Germany, despite her military and political preoccupations, is actually finding time not only to wage war on foreign enemies as if they were so many alien enemies, but also to take a census of the number of tame rabbits in the different provinces, and even to classify the rabbits according to their age.
